One feature of the last campaign has disappeared from view. This is the old bandana. In opposition to it the old flag handkerchief was brought out four years ago, and this still flourishes.

Then there are umbrellas, which will be a great feature of this campaign. Last campaign the Republicans carried the flag design and the Domocrats the red bandanna umbrella. This year this last has been changed to a unique new figure in red, white and blue. In cases the old styles remain intact.

There are a few little questions about the eliquette of the table that some girl wants to know. She must hold her knife by its handle, and never let her fingers reach up to its blads. Whenever it is possible a fork must be used in place of a spoon, and that same spoon, by the by, must never be left in a coffee or tea cup, but politiely and securely laid to rest in the saucer. Glasses with handles are hold by them. A gehlet should be caught by the stem, the fingers not entwining the bowl part. Don't but ter a large piece of bread and take bites from it; instead, break your bread in small pieces one at a time, and butter it, that is if you are eating butter, and convey it to your mouth by your fingers. Olives, celery, radishes, strawberries with along, and sayaragus are all eaten from the fingers. The old method of eating cheese with a knife has been given up, a fork being used in its place. The use of many small dishes for vegetables is not good taste; indeed, many vegetables should not be served at one time. deed, many vegetables should not be served at one time.
